INGREDIENTS: STRAWBERRIES AND SUGAR

Tips On Properly Utilizing Frozen Strawberries

- Proper thawing takes time. Refrigerator thawing is recommended to retain better shape (see chart below). In fact, if you want to retain the best flavor and texture, serve strawberries while they're still slightly frozen.
- If thawing at room temperature, keep strawberries in a clean, sanitary environment.
- Cover and refrigerate unused thawed strawberries within two hours.
- Never try to speed up the thawing process by running water over the outside of the container. This can promote the growth of bacteria.
- After thawing, keep berries refrigerated and use within three days. Never re-freeze.

Thawing: Plan Ahead

Pack Size	Refrigerator Time
Sliced Sweetened Berries (6.5 lbs.)	10-15 hours
